

110TH CONGRESS
1ST SESSION

S. 1854

To amend the Social Security Act and the Public Health Service Act to improve elderly suicide early intervention and prevention strategies, and for other purposes.

IN THE SENATE OF THE UNITED STATES

JULY 23, 2007

Mr. REID (for himself, Mr. KERRY, and Mr. DODD) introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To amend the Social Security Act and the Public Health Service Act to improve elderly suicide early intervention and prevention strategies, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Stop Senior Suicide
5 Act”.

6 **SEC. 2. FINDINGS.**

7 Congress makes the following findings:

8 (1) The rate of suicide among older adults is
9 higher than that for any other age group, and the

1 suicide rate for individuals 85 years of age and older
2 is the highest of all. In 2004, 6,860 older Americans
3 (age 60 and older) died by suicide (Centers for Dis-
4 ease Control and Prevention, 2007).

5 (2) In 2004, the elderly (age 65 and older)
6 made up only 12.4 percent of the population but ac-
7 counted for 16 percent of all suicides.

8 (3) According to the Centers for Disease Con-
9 trol and Prevention, from 1980 to 1992, the suicide
10 rate rose 9 percent for Americans 65 years of age
11 and above, and rose 35 percent for men and women
12 ages 80 to 84.

13 (4) Older adults have a considerably higher rate
14 of completed suicide than other groups. While for all
15 age groups combined there is one suicide for every
16 20 attempts, there is one suicide for every 4 at-
17 tempts among those 65 years of age and older.

18 (5) Of the nearly 35,000,000 Americans age 65
19 and older, it is estimated that 2,000,000 have a de-
20 pressive illness and another 5,000,000 suffer from
21 depressive symptoms and syndromes that fall short
22 of meeting full diagnostic criteria for a disorder
23 (Mental Health: A Report of the Surgeon General,
24 1999).

1 (6) Seniors covered by Medicare are required to
2 pay a 50 percent co-pay for outpatient mental health
3 services while they are only required to pay a 20
4 percent co-pay for physical health services.

5 (7) It is estimated that 20 percent of older
6 adults who complete suicide visited a physician with-
7 in the prior 24 hours, 41 percent within the past
8 week, and 75 percent within the past month (Sur-
9 geon General's Call to Action to Prevent Suicide,
10 1999).

11 (8) A substantial proportion of older patients
12 receive no treatment or inadequate treatment for
13 their depression in primary care settings (National
14 Institutes of Health Consensus Development Panel
15 on Depression in Late Life, 1992; Lebowitz et al.,
16 1997).

17 (9) Suicide in older adults is most associated
18 with late-onset depression. Among patients 75 years
19 of age and older, 60 to 75 percent of suicides have
20 diagnosable depression (Mental Health: A Report of
21 the Surgeon General, 1999).

22 (10) Research suggests that many seniors re-
23 ceive mental health assistance from their primary
24 care providers or other helping professionals versus

1 specialty mental health professionals (Mental
2 Health: A Report of the Surgeon General, 1999).

3 (11) Objective 4.6 of the National Strategy for
4 Suicide Prevention calls for increasing the propor-
5 tion of State Aging Networks that have evidence-
6 based suicide prevention programs designed to iden-
7 tify and refer for treatment elderly people at risk for
8 suicidal behavior.

9 (12) Objective 1.1 of the President's New Free-
10 dom Commission on Mental Health calls for advanc-
11 ing and implementing a national campaign to reduce
12 the stigma of seeking care and a national strategy
13 for suicide prevention. The report addresses tar-
14 geting to distinct and often hard-to-reach popu-
15 lations, such as ethnic and racial minorities, older
16 men, and adolescents (NFC Report, 2003).

17 (13) One of the top 10 resolutions at the 2005
18 White House Conference on Aging called for improv-
19 ing the recognition, assessment, and treatment of
20 mental illness and depression among older Ameri-
21 cans.
