2D SESSION

H. R. 6052

To promote increased public transportation use, to promote increased use of alternative fuels in providing public transportation, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

MAY 14, 2008

Mr. OBERSTAR (for himself, Mr. MICA, and Mr. DEFAZIO) introduced the following bill; which was referred to the Committee on Transportation and Infrastructure, and in addition to the Committee on Oversight and Government Reform, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

A BILL

To promote increased public transportation use, to promote increased use of alternative fuels in providing public transportation, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Saving Energy
5 Through Public Transportation Act of 2008”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

1 (1) In 2007, people in the United States took
2 more than 10.3 billion trips using public transpor-
3 tation, the highest level in 50 years.

4 (2) Public transportation use in the United
5 States is up 32 percent since 1995, a figure that is
6 more than double the growth rate of the Nation's
7 population and is substantially greater than the
8 growth rate for vehicle miles traveled on the Na-
9 tion's highways for that same period.

10 (3) Public transportation use saves fuel, re-
11 duces emissions, and saves money for the people of
12 the United States.

13 (4) The direct petroleum savings attributable to
14 public transportation use is 1.4 billion gallons per
15 year, and when the secondary effects of transit avail-
16 ability on travel are also taken into account, public
17 transportation use saves the United States the
18 equivalent of 4.2 billion gallons of gasoline per year
19 (more than 11 million gallons of gasoline per day).

20 (5) Public transportation use in the United
21 States is estimated to reduce carbon dioxide emis-
22 sions by 37 million metric tons annually.

23 (6) An individual who commutes to work using
24 a single occupancy vehicle can reduce carbon dioxide
25 emissions by 20 pounds per day (more than 4,800

1 pounds per year) by switching to public transpor-
2 tation.

3 (7) Public transportation use provides an af-
4 fordable alternative to driving, as households that
5 use public transportation save an average of \$6,251
6 every year.

7 (8) Although under existing laws Federal em-
8 ployees in the National Capital Region receive tran-
9 sit benefits, transit benefits should be available to all
10 Federal employees in the United States so that the
11 Federal Government sets a leading example of great-
12 er public transportation use.

13 (9) Increasing public transportation use is a na-
14 tional priority.

15 **SEC. 3. GRANTS TO IMPROVE PUBLIC TRANSPORTATION**
16 **SERVICES.**

17 (a) AUTHORIZATIONS OF APPROPRIATIONS.—

24 Clean Air Act (42 U.S.C. 7401 et seq.) shall be for 100
