**FISCAL ANALYSIS**

ASSUMPTION

**St. Louis County** officials assume no fiscal impact.

Officials of the **Taney County Commission** stated that this proposal in their opinion reinstates needed county control over the formation of villages. Absent such control a developer could form a village for the sole purpose of circumventing County Ordinances, including planning and zoning laws. Officials stated that citizens do not benefit from a village with an inadequate financial base that cannot provide even the most basic services. Officials stated that “while difficult to quantify, this proposal has the potential to save Taney County millions of dollars”.

**Oversight** assumes no state fiscal impact. **Oversight** due to uncertainty will show fiscal impact to be \$0 to a positive unknown for certain local governments.

### FISCAL DESCRIPTION

This act repeals the provisions in Section 72.080, RSMo, which allow villages to incorporate in an alternative way rather than requiring a petition by two-thirds of the taxable inhabitants that is approved by the county commission, as is required by Section 80.020, RSMo.

Under the language being repealed, a city, town, or village may incorporate after a number equal to 15% of the registered voters petitions the county commission. The commission must submit the question to the voters for their approval. In order to qualify for incorporation a village need only have the ability to furnish normal municipal services if it has at least 100 inhabitants. The language creating a definition of "village" in Section 72.080, RSMo, is also repealed.

This act contains a severability clause.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
